## **Commerce, Insurance and Economic Development Task Force 2012 Overview**

### **ABOUT ALEC**

The American Legislative Exchange Council (ALEC) is the nation's largest nonpartisan, individual membership organization of state legislators who share a common commitment to the Jeffersonian principles of individual liberty, limited government, and free markets. ALEC's membership includes almost 2,000 legislators from all 50 states, over 100 Congressional alumni, and more than 300 private sector members, including think tanks, nonprofits, foundations, and corporations. Roughly 1,000 bills are introduced each year that are based upon ALEC's model legislation.

### **TASK FORCE MEMBERSHIP**

ALEC members gain access to a vast network of over 2,000 state legislators in all fifty states who believe in free market principles. Members get maximum value from membership in ALEC by serving on one of our nine Task Forces. As a Task Force member, you have significant access to a committed group of legislators who are passionate about your issue area. Task Forces include private and public sector members, who can both introduce and vote on model legislation at one of our three meetings each year—our Spring Task Force Summit (spring), Annual Meeting (summer), and States and Nation Policy Summit (winter). Further, Task Force members receive support from ALEC staff, helping to track your issues throughout the year, sending ALEC Issue Alerts when an issue consistent with ALEC model legislation arises in a state, and assisting you in other efforts.

### **ALEC'S COMMERCE, INSURANCE AND ECONOMIC DEVELOPMENT TASK FORCE**

**Public Sector Members: 146**

**Private Sector Members: 103**

Members of the Commerce, Insurance, and Economic Development (CIED) Task Force believe that economic freedom is the cornerstone of our prosperity. The Task Force works with members to develop policies that enhance competitiveness, promote employment and economic prosperity, encourage innovation, and limit government regulation imposed upon business. The Task Force educates ALEC members through Task Force meetings, issue briefings, policy papers, and special workshops.

The CIED Task Force consists of more than 140 legislators from 40 different states and more than 100 private sector members. Many of the public sector members serve in leadership positions or are heavily-involved on financial, labor, business, transportation and infrastructure issues; 50 of them serve as chair or vice-chair of their respective financial, labor, business, transportation, or infrastructure committees.

**Public Sector Chair:** Rep. Glenn Vaad, *CO*

#### IV. Consideration of Model Legislation

1. “Resolution on the Misapplication of Employee Classification Laws” – by Mr. Wayne Weikel, *International Franchise Association*

This Resolution recognizes that business format franchising is a major contributor to the United States economy. The resolution also recognizes that franchising is a contractual business relationship, not akin to an employment relationship.

Motion to adopt the model resolution; passed the public sector unanimously; passed the private sector unanimously; **Resolution Passed.**

2. “Legal Tender Act” – by Mr. Richard Danker, *American Principles Project*

*Triple Referred with the Commerce, Insurance and Economic Development and the International Relations Task Forces.*

This Act recognizes gold and silver coins as legal tender free of taxation in the state under the authority of Article I Section 10 of the U.S. Constitution to recognize gold and silver coins as legal tender, and provides that a committee will study further developments for sound monetary policy in the state in order to provide a competitive means for preserving the purchasing power of the earnings and savings of the citizens of [insert state].

Motion to table the model legislation for further consideration; failed public sector; **Motion to Table Failed.**

Motion to amend the model legislation by striking Section 6; passed public sector unanimously; passed private sector unanimously; **Amendment Passed.**

Motion to adopt the model legislation as amended; failed the public sector; **Bill Failed.**

3. “Resolution to Restore Transportation to the States” – by Representative Chuck Martin, *Georgia*, and Senator Chip Rogers, *Georgia* (co-presenter)

This Resolution empowers the state of [insert state] to manage gas tax dollars without federal government interference.

Motion to amend the model legislation on line 36 by inserting: “or reduce” after “cease”; motion to amend failed the public sector; **Amendment Failed.**

Motion to pass the model resolution; passed the public sector; passed the private sector; **Resolution Passed.**

4. “Resolution in Support of Payroll Cards” – by Ms. Kate Viar, VISA

This resolution opposes recent efforts to over-regulate payroll card laws, such as unreasonable mandates on employers to provide programs that require free banking services which will ultimately increase the cost of payroll card provision, reduce the likelihood of their use, and consequently, their benefits.

Motion to amend the model resolution by changing the title from “Resolution in Support of Payroll Cards” to “Resolution Opposing Overregulation of Payroll Cards”; passed the public sector unanimously; passed the private sector unanimously; **Amendment Passed.**

Motion to adopt the model resolution as amended; passed the public sector unanimously; passed the private sector unanimously; **Resolution Passed.**

5. “Competitive Private Professional Certification Act” –by Representative Tom Forese, *Arizona*, and Mr. Bryon Schlomach, *The Goldwater Institute* (co-presenter)

*Dual referred with the Public Safety & Elections Task Force.*

Government licensing of professions is often justified on the basis that it protects health and safety and that it allows members of a profession to signal that potential customers can be assured of a minimum level of quality. This arguably enhances market outcomes and opportunity. On the other hand, licensing has the effect of creating monopoly-type benefits for those in a licensed profession at the expense of consumers and at the expense of others willing to provide a quality service. Often, economists have recommended certification as an alternative to licensing but certification is difficult to enforce privately with reliance on civil action. Government certification looks a lot like licensing. This model bill proposes private certification enforced by criminal law. There can be multiple private certifying organizations for similar professions and individuals could practice a profession without any certification at all (unless the profession is licensed). Professionals can signal quality with their certification credentials credibly enforced through criminal law while not blocking others from practicing the profession.

Motion to refer the model legislation to the Labor and Business Regulation Subcommittee; motion passed the public sector unanimously; motion passed the private sector unanimously; **Bill Referred to Labor and Business Regulation Subcommittee.**

## **V. For the Good of the Order**

8       **WHEREAS**, it is to the benefit of the Task Force to assure that these bills reflect the  
9 current policy, values, and interests of ALEC;

10  
11       **THEREFORE**, the Commerce, Insurance, and Economic Development Task Force  
12 adopts the following procedures for purposes of its internal operations:

13  
14       **SECTION 1. {Establishment, Charge, and Composition of Special Advisory**

34  
35               (3) One member of the Task Force designated by the Public Sector Task Force Chair

36  
37               (4) One member of the Task Force designated by the Private Sector Task Force Chair

38  
39       (E) The Task Force Advisor and Task Force Director shall serve as ex officio members of  
40 the subcommittee but shall not vote.

41  
42       **SECTION 2. {Reports and Content of Reports}**

43  
44       (A) Immediately following the Task Force’s approval of this proposal, the Task Force  
45 Advisor will present to the Task Force a list of bills to be considered in the first report

46 of the Subcommittee.

47  
48 (1) Within one week of the approval of this proposal the Task Force Director will  
49 send out a list of the models to be considered in the first report to the entire Task  
50 Force and initiate an “open commentary” period.

51  
52 (2) During this period, Task Force members may send comments regarding the  
53 models directly to the Task Force Director for submission to the Subcommittee.

54  
55 (B) The Subcommittee shall submit to the Task Force Director, at least forty five days  
56 prior to its next Task Force meeting following the meeting at which this proposal is  
57 approved, a report. The Task Force Director will then transmit to the Task Force, at

73  
74 (3) Make Technical Amendments: The represents the subcommittees’  
75 recommendation that the fundamental principles, gist, and impact of the model  
76 legislation are and ought to be consistent with ALEC policy going forward but  
77 that certain minor modifications are necessary to bring the bill into conformity  
78 with current realities. When technical amendments are proposed, a specific list of  
79 such amendments shall be included in the report. Topics for technical  
80 amendments include but are not limited to updates to the titles of government  
81 agencies, changes to dates, and changes in terminology to reflect changes in  
82 technology, custom, and common usage as well as corrections to grammar and  
83 spelling.

84  
85 (4) Further Review by a Subcommittee or the Task Force as a Whole: This represents  
86 the Subcommittee’s recommendation that a particular subcommittee or the Task  
87 Force as a whole consider specific amendments and modifications to the model  
88 bill that have the impact of changing its fundamental principles, gist, or impact.

89  
90 (E) Each report shall be approved by a majority of members of the subcommittee before  
91 it is submitted to the Task Force as a whole. Any member of the committee voting

92 against the report or any portion of the report will be allowed to provide an advisory  
93 “minority report” outlining reasons for dissent.

94  
95 (F) Subsequent reports will be provided at the discretion of the Subcommittee’s  
96 members.

97  
98 (1) Subsequent to any additional report, the task force advisor shall present to the task  
99 force a list of bills to be reviewed.

101 (2) All subsequent report shall follow the procedures in sections (A), (B), (C), (D)  
102 and (E) above.

103  
104 **Section 3. {Procedures Relating to Reports and Models}**

105  
106 (A) Each report shall be voted on by the Task Force as a whole under special rules of  
107 procedure:

108  
109 (1) Initial debate on the report shall be limited to 30 minutes.

110  
111 (2) Approval of the report will require majority support by both the public and private  
112 sectors

113  
114 (3) If a report is rejected by either the public sector or the private sector of the Task  
115 Force, any member of the Task Force may immediately make a privileged, non-  
116 debatable motion to consider any single model proposal mentioned in the report  
117 separately from the report as a whole.

128 (1) A list of model proposals to be repealed that shall be forwarded to the ALEC  
129 Legislative Board for its approval.

130

132 ALEC Legislative Board for its approval.

133  
134 (C) All model bills suggested for further review from subcommittees or the Task Force as  
135 a whole shall be scheduled for discussion in the appropriate forum.

- 137 (1) Any individual or group of individuals who are members of the Task Force may  
138 serve as sponsors of any piece of legislation being considered for further review.  
139
- 140 (2) In the event that multiple groups or individuals wish to serve as a sponsor, the  
141 group with more members of the Task Force will be designated as the “lead”  
142 sponsor and others will be assured the ability to offer their proposals as  
143 amendments.  
144
- 145 (3) In the event that no individual steps forward to serve as the sponsor of the model  
146 legislation being recommended for review, the Task Force Advisor will serve as  
147 the bill sponsor for purposes of debate and discussion and shall have an  
148 affirmative responsibility to work for the passage of the committee’s  
149 recommendations but will not have a vote on the matters concerning it.

1       **DRAFT Resolution Opposing Regulation Intruding on the States’**  
2       **Traditional Role as the Primary Regulator of Homeowners’ Insurance**

3  
4       *Summary*

5  
6       This Resolution upholds the McCarran-Ferguson Act and reserves the primacy of  
7       homeowners’ insurance regulation to the states by opposing the listing of the provision  
8       and pricing of homeowners’ insurance by the U.S. Department of Housing and Urban  
9       Development as an example of a housing policy that may have a disparate impact on a  
10      specific group of persons.

11  
12      *Model Resolution*

13  
14      **WHEREAS**, the United States Department of Housing and Urban Development  
15      published notice of a proposed rule in the Federal Register on November 16, 2011, titled  
16      “Implementation of the Fair Housing Act’s Discriminatory Effects Standard”; and

17  
18      **WHEREAS**, the purpose of the proposal is to establish a uniform standard of liability for  
19      facially neutral housing practices that have a discriminatory effect; and

20  
21      **WHEREAS**, the proposed regulation would add language to existing Fair Housing Act  
22      regulations confirming such Act may be violated by a housing practice that has a  
23      discriminatory effect regardless of whether the practice was adopted for a discriminatory  
24      purpose; and

25  
26      **WHEREAS**, under the proposed rule a discriminatory effect is deemed to occur where a  
27      facially neutral housing practice actually or predictably results in a discriminatory effect  
28      on a group of persons (i.e., causes a disparate impact); and

29  
30      **WHEREAS**, the proposed rule lists the provision and pricing of homeowners’ insurance  
31      as an example of a housing policy or practice that may have a disparate impact on a class  
32      of persons protected by the Fair Housing Act; and

33  
34      **WHEREAS**, Congress specifically reserved the primacy of homeowners insurance  
35      regulation to the States with passage of the McCarran-Ferguson Act; and

36  
37      **WHEREAS**, federal and state courts consistently reject challenges to homeowners  
38      insurance pricing practices on the basis of disparate impact in order to preserve state  
39      regulation of insurance underwriting and rating practices in accordance with the  
40      McCarran-Ferguson Act; and

41  
42      **WHEREAS**, the proposed regulation could erode existing state laws that  
43      comprehensively regulate the provision and pricing of homeowner’s insurance; and  
44

45 **WHEREAS**, the erosion of the authority of the States to regulate insurance could harm  
46 consumers and the insurance marketplace by creating uncertainty and by inciting costly  
47 and unnecessary litigation,  
48

49 **THEREFORE, BE IT RESOLVED** that American Legislative Exchange Council  
50 (ALEC) supports the legislative intent of Congress as expressed in the McCarran-  
51 Ferguson Act to reserve the primacy of regulation of homeowners insurance to the States  
52 and expressly disclaim from the purview of the proposed rule any impact on the  
53 underwriting, rating or availability of homeowners insurance; and  
54

55 **BE IT FURTHER RESOLVED** that ALEC supports the current authority of the States  
56 to regulate insurance under the McCarran Ferguson Act.

# **DRAFT The Occupational Licensing Relief and Job Creation Act**

## ***Summary***

Occupational licensing increases unemployment by about 1%, raises prices by about 15%, and offers no incremental consumer protection over a competitive market. This Act ensures that an individual may pursue lawful occupation free from unnecessary occupational regulations, and protects against the use of occupational regulations to reduce competition and increase prices to consumers. When enacting future occupational regulations, this Act requires state legislatures to find real harm, and select the least-restrictive regulation to address that harm. The Act also protects entrepreneurs by shifting the burden to the government to show in court and administrative hearings that it is enforcing occupational laws for health-and-safety reasons, and not solely as a barrier to entry.

## ***Model Legislation***

### **Section 1. {Purpose}**

This Act's purpose is to:

- (A) Ensure that an individual may pursue a lawful occupation free from unnecessary occupational regulations, and
- (B) Protect against the misuse of occupational regulations to reduce competition and increase prices to consumers.

### **Section 2. {Definitions}** The following definitions apply in this Act:

- (A) "Business license" means a permit, registration, certification, franchise or other approval required by law for a sole proprietorship, partnership or corporate entity to do business.
- (B) "Certification" is a voluntary program in which the government grants nontransferable recognition to an individual who meets personal qualifications established by a legislative body. Upon approval, the individual may use "certified" as a designated title. A non-certified individual may also perform the lawful occupation for compensation but may not use the title "certified." "Certification" is not intended to be synonymous with an "occupational license" in this Act or to prohibit the use of private certification.
- (C) "Court" means any court, administrative tribunal or other government agency acting in a judicial or quasi-judicial capacity.
- (D) "Government" means the government of this state or any of its political subdivisions.
- (E) "Lawful occupation" means a course of conduct, pursuit or profession that includes the sale of goods or services that are not themselves illegal to sell irrespective of whether the individual selling them is subject to an occupational regulation.

(F) “Least restrictive means of furthering a compelling governmental interest” means, from least to most restrictive,

(1) A provision for private civil action to remedy consumer harm,

(2) Inspection,

(3) Bonding or insurance,

(4) Registration,

(5) Certification, or

(6) Occupational license.

(G) "Occupational license" is a nontransferable authorization in law for an individual to perform a lawful occupation for compensation based on meeting personal qualifications established by a legislative body. It is illegal for an individual who does not possess an occupational license to perform the occupation for compensation. Occupational licensing is the most restrictive form of occupational regulation.

(H) "Occupational regulation" means a statute, ordinance, rule, practice, policy or other requirement in law for an individual to work in a lawful occupation. It excludes a business license and zoning and land use regulations except to the extent those laws regulate an individual’s personal qualifications to perform a lawful occupation.

(I) “Personal qualifications” are criteria established by a legislative body related to an individual’s personal background including completion of an approved educational program, satisfactory performance on an examination, work experience, moral standing and completion of continuing education.

(J) "Registration" means a requirement established by a legislative body in which an individual gives notice to the government that may include the individual's name and address, the individual's agent for service of process, the location of the activity to be performed, and a description of the service the individual provides. “Registration” does not include personal qualifications but may require a bond or insurance. Upon approval, the individual may use “registered” as a designated title. A non-registered individual may not perform the occupation for compensation or use “registered” as a designated title. “Registration” is not transferable. It is not intended to be synonymous with an “occupational license” in this Act or to prohibit the use of private registration.

(K) “Substantial burden” means a legal or other regulatory obstacle that imposes significant difficulty or cost on an individual seeking to enter into or continue in a lawful occupation. A substantial burden is a burden that is more than incidental.

93  
94 **Section 3. {Right to engage in a lawful occupation}**  
95

96 (A) An individual has a right to engage in a lawful occupation free from any substantial  
97 burden in the form of an occupational regulation unless the government demonstrates  
98

99 (1) It has a compelling interest in protecting against present and recognizable harm to the  
100 public health or safety, and  
101

102 (2) The occupational regulation is the least restrictive means of furthering that  
103 compelling interest.  
104

105 (B) Defense and Relief  
106

107 (1) An individual may assert as a defense the right to engage in a lawful occupation in  
108 any judicial or administrative proceeding brought by the government to enforce an  
109 occupational regulation that violates Section 3, Subsection (A).  
110

111 (2) An individual may bring an action for declaratory judgment or injunctive or other  
112 equitable relief for a violation of Section 3, Subsection (A) by the government.  
113

114 (3) An individual may assert as a defense or bring an action against the enforceability of  
115 an occupational regulation, pursuant to Subsections (1) and (2), which is:  
116

117 (a) In law at the effective date of this Act; or  
118

119 (b) Enacted, adopted or amended after the effective date of this Act and does not  
120 include in state statute an explicit exemption from this Act.  
121

122 (4) An individual who asserts a defense or brings an action under this section has the  
123 initial burden of proof that an occupational regulation substantially burdens the  
124 individual's right to engage in a lawful occupation.  
125

126 (5) If the individual meets the burden of proof under Subsection (4), the government  
127 must demonstrate by clear and convincing evidence that the government has a  
128 compelling interest in protecting against present and recognizable harm to the public  
129 health or safety, and the occupational regulation is the least restrictive means for  
130 furthering that compelling interest.  
131

132 (C) A court shall liberally construe this Act to protect the right established in Subsection (A)  
133 of this section. A court shall make its own findings of fact and conclusions of law. It  
134 shall not grant any presumption to legislative or administrative determinations of harm to  
135 the public health or safety, or that the regulation is the least restrictive means of  
136 furthering a compelling governmental interest.  
137

138 (D) Nothing in this section shall be construed to create a right of action against a private  
139 party or to require a private party to do business with an individual who is not licensed,  
140 certified or registered with the government.

141

142 **Section 4. {Federal law's use of state occupational regulations}**

143

144 (A) Nothing in this section shall be construed to create a right of action against the federal  
145 government for its use of a state occupational regulation in federal law.

146

147 **Section 5. {Exemption}** [Optional]. This Act does not apply to an occupational regulation  
148 of an individual who is a [insert type of occupation to be exempted].

149

150 **Section 6. {Severability Clause}**

151

152 **Section 7. {Repealer Clause}**

154 **Section 8. {Effective Date}**

# **DRAFT The Open and Fair Competition Act for Water and Wastewater Projects**

## ***Summary***

It is the intention of this Act to ensure that all proven and acceptable piping materials must be included in all bids for water and wastewater projects. This promotion of free competition will ensure limited government resources are being used to the greatest advantage.

## ***Model Legislation***

### **{Title, Enacting clause, etc.}**

Be it enacted by the legislature of the state of [insert state].

### **Section 1. {Definitions}**

(A) Governmental agency refers to any state agency, state district, city, county, city and county, including a chartered city or county, school district, community college district, public district, county board of education, joint powers authority, water or sewer district, special district, or any other public or municipal corporation.

(B) A piping material is considered proven and acceptable if it meets current and recognized standards as issued by the American Society for Testing and Materials (ASTM) and the American Water Works Association (AWWA) and other recognized standards and certification agencies. The goal is to construct a project at the best price and best value for system customers and taxpayers.

(C) Best price and best value refers to a combination of project quality, sustainability, durability, corrosion resistance, price and outcomes that taken together provides the most benefit to taxpayers for long-term asset management.

### **Section 2. {Findings}**

(A) The nation's water and sewer infrastructure is deteriorating and is corroding at an alarming rate. At the same time, complying with the Safe Drinking Water Act and Clean Water Act requires extensive upgrades of many water and sewer systems/utilities.

(B) According to a 2002 congressional study, corrosion is a drag on the U.S. economy, costing U.S. drinking water and wastewater systems more than \$50.7 billion annually. Corroding piping materials have also contributed to the decline of water quality and are responsible for a staggering amount of water loss each year. All told, leaking, corroding

43 pipes lose some 2.6 million gallons of drinking water every year or 17 percent of all  
44 water pumped in the United States.<sup>1</sup>

45  
46 (C) The majority (60 percent) of replacement costs are for water transmission and  
47 distribution and sewer pipes. Building and replacing water and sewer lines alone will cost  
48 some \$600 billion to \$1.1 trillion over the next 20 years.

49  
50 (D) The easiest way for water and sewer utilities to reduce costs, drive innovation and  
51 more effectively manage their underground infrastructure is to ensure all approved piping  
52 materials and technologies get considered in bidding processes.

53  
54 (E) Considering all approved piping materials and technologies will maximize scarce  
55 federal and state funding for state revolving funds and other grants provided to localities.

56  
57 (F) Sound infrastructure asset management principle should be applied, which will ensure  
58 that only the longest lasting and most efficient pipe is used with the lowest operations and  
59 maintenance costs.

### 60 61 **Section 3. {Application}**

62  
63 (A) It is the intent of the Legislature that:

64  
65 (1) State and local government agencies have the authority to engage in open  
66 competitive bidding to study, plan, design, construct, develop, finance, maintain,  
67 rebuild, improve, repair, or operate water and wastewater utilities.

68  
69 (2) When or where any state or local taxpayer dollars/grants are used to fund, for  
70 example through State Revolving Funds (SRFs), any water or wastewater project,  
71 all procurement transactions for piping and other materials shall be conducted in a  
72 manner that provides for maximum open and free competition. All proven and  
73 acceptable piping materials must be included in all bids

74  
75 (3) This Act creates no new governmental agencies.

76  
77 (4) This Act specifically prohibits practices that may result in unlawful activity  
78 including, but not limited to, rebates, kickbacks, or other unlawful considerations,  
79 and prohibits government entity employees from participating in the selection  
80 process when those employees have a relationship with private entities seeking a  
81 contract under this Act or as proscribed by existing state or local contracting law.

## *Model Legislation*

### **Section 1. {Definitions}**

(A) "Food nutrition information" includes, but is not limited to, the caloric, fat, carbohydrate, cholesterol, fiber, sugar, potassium, protein, vitamin, mineral, and sodium, and allergen content of food. "Food nutrition information" also includes the designation of food as healthy or unhealthy.

(B) "Political subdivision" means any agency, department, commission, authority, or other governmental instrumentality hierarchically below the state level.

(C) "Local legislation" is any governing action taken by a political subdivision.

(D) "Consumer incentive item" means any licensed media character, toy, game, trading card, contest, point accumulation, club membership, admission ticket, token, code or password for digital access, coupon, voucher, incentive, crayons, coloring placemats, or other premium, prize, or consumer product that is associated with a meal served by or acquired from a food service operation.

The agency may adopt rules for that purpose pursuant with state code, including rules that establish a schedule of civil penalties for violations of this section and rules adopted under it. Subject to state code, portions of the rules may be adopted by referencing all or any part of any federal regulations pertaining to the provision of food nutrition information and consumer incentive items.

(B) The regulation of the provision of food nutrition information and consumer incentive items at food service operations and how food service operations are characterized are

47 matters of general statewide interest that require statewide regulation, and rules adopted  
48 under this section constitute a comprehensive plan with respect to all aspects of the  
49 regulation of the provision of food nutrition information and consumer incentive items at  
50 food service operations in this state.

51  
52 (C) Rules adopted under this section shall be applied uniformly throughout this state.

74 otherwise restrict a food service operation based upon the existence or non-  
75 existence of food-based health disparities as recognized by the department of  
76 health, the institute of health, or the centers for disease control.

# **DRAFT Prohibition on Paid Union Activity (Release Time) by Public Employees Act**

## ***Summary***

This Act prohibits “release time”—the practice of paying a public employee a public salary for time spent in union recruiting and representation activities. In some cases, public employees have become full-time union activists, drawing a full-time public salary and enjoying publicly paid benefits such as health insurance and pension earnings while doing so. While public employees should not be prohibited from freely associating outside of their employment duties, including hiring individuals to help represent their interests, this should occur at public employee, not taxpayer, expense.

## ***Model Legislation***

**Section 1. {Definitions}** The following definitions apply in this Act:

(A) “Employment bargain” means any formal or informal employment contract, agreement or understanding regarding the wages, benefits or terms and conditions of employment of any public employee.

(B) “Public employee” means any individual who is employed by a public employer.

(C) “Public employer” means any branch, department, division, office, agency or political subdivision of this state that has employees.

(D) “Union” means any association or organization, incorporated or unincorporated, that primarily exists to represent the interests of member employees in wages, benefits and terms and conditions of employment.

(E) “Union activities” means activities that are performed by a union, union members or representatives that relate to advocating the interests of member employees in wages, benefits, terms and conditions of employment or the enforcement, fulfillment or advancement of the union's organizational purposes, obligations, external relations or internal policies and procedures.

## **Section 2. {Prohibition Against Compensation for Public Employee Union Activities}**

(A) A public employer shall not enter into any employment bargain with any public employee or union to compensate any public employee or third party for union activities. Any employment bargain that includes compensation to public employees or third parties for union activities is declared to be against the public policy of this state and is void.

(B) This section does not prohibit a public employee from receiving compensated leave time for any personal purpose, provided that such compensated leave time is not knowingly taken or given to compensate for union activities.

(C) This section does not apply to any existing non-executory contracts in effect before the effective date of this section but an existing contract shall not be renewed if the contract has any terms that conflict with this section.

(D) The attorney general shall enforce this section. Any taxpayer of the jurisdiction in which a violation of this section occurs has standing in any court of record to bring a special action against any agent or agency of this state or its political subdivisions to remedy any violation of any provision of this section.

### **Section 3.{State preemption of inconsistent local laws}**

(A) The regulation of public sector union employment bargains is a matter of statewide concern and is not subject to further inconsistent regulation by a county, city, town or other political subdivision of this state. This article preempts all inconsistent rules, regulations, codes, ordinances and other laws adopted by a county, city, town or other political subdivision of this state regarding public sector union employment bargains.

# DRAFT Public Employee Paycheck Protection Act

## *Summary*

Though states have broad authority to allow deductions from individuals' paychecks if those individuals request or allow it, a one-time permission should not suffice to allow any kind of deduction to occur for the duration of an employee's employment, be it for charitable donations, employee benefits, or union dues. This Act would require that yearly express permission be given by individual employees to allow dues and other optional deductions from their paychecks to occur.

## *Model Legislation*

### **Section 1. {Yearly Employee Paycheck Deductions Approval Required}**

(A) For deductions after [insert appropriate date], a public employer in this state shall not deduct any third party payment from an employee's paycheck unless the employee annually provides express written or electronic authorization to the employer for the deduction.

(B) The attorney general shall adopt rules that describe the acceptable forms of employee authorization and entity statements under this section.

(C) If a public employer knowingly deducts payments in violation of Subsection (A) of this Section, the employer is subject to a civil penalty of at least ten thousand dollars for each violation. The attorney general shall impose and collect the civil penalties under this Subsection and shall deposit all civil penalties collected pursuant to this section in the state general fund.

(D) This Section does not apply to any of the following:

(1) Deductions for employee health care.

(2) Deductions for state, local or federal taxes.

(3) Any deduction otherwise required by law, including contributions or deductions to a state retirement system or other standard retirement benefit contributions.

(E) If an employee has authorized a deduction from the employee's paycheck under this section and the employee resigns membership in the association or organization for which the deduction was authorized, the employee's authorization for the deduction is rescinded upon the employer's receipt from the employee of written notice of the resignation. The employer shall have one pay period to process the rescission.

(F) This Section does not preempt any federal law.

(G) For the purposes of this Section, "public employer" means the state and any subdivision thereof.

# DRAFT The Decertification Elections Act

## *Summary*

Workers are entitled to seek an election to determine if a majority of their coworkers want to drop union representation. Decertification elections allow workers to decide if and how they want to be represented by a union. This Act provides for worker choice by lowering the number of petition signatures necessary to trigger a decertification election and expanding the time in which a petition to decertify may be filed.

## *Model Legislation*

**{Title, enacting clause, etc.}**

### **Section 1. {Definitions}**

- (A) “Petition to decertify” means a petition requesting the removal or substitution of a labor organization representative.
- (B) “The Commission” refers to the state labor board or any body that oversees labor relations in the state.
- (C) “Labor organization” refers to any association or organization of employees, and any agency, employee representation committee, or plan in which employees participate that exists, in whole or in part, to advocate on behalf of employees about grievances, labor disputes, wages, rates of pay, hours of employment, or conditions of work.
- (D) “Majority of bargaining unit members” refers to over 51 percent of total members, not just those voting.

### **Section 2. {Petitions to Decertify}**

- (A) Upon the presentation of a petition requesting the removal of a labor organization representative or substitution of another representative, said petition bearing the signatures of 10 percent of the members of the bargaining unit, the Commission shall schedule an election no earlier than 30 days and no later than 60 days after the filing of the petition.
- (B) If within 15 days after a petition to decertify a representative is filed with the Commission, a second labor organization files a petition to represent the same bargaining unit, bearing the signatures of 10 percent of the members of the bargaining unit, the labor organization named in the second petition shall be included on the ballot.
- (C) A petition to decertify a representative may not be filed for a year after a representative is certified, but may be filed at any other time.

(D) If a representative fails to receive the support of a majority of bargaining unit members he or she shall be immediately decertified.

(E) All elections held pursuant to this section shall be held by secret ballot.

(F) “No representation” shall be included as an option on the ballot.

(G) In any election, if a labor organization other than the current representative receives the support of a majority of bargaining unit members, it shall be immediately certified as the representative by the Commission.

(H) If a majority of bargaining unit members indicates support for a representative as opposed to no collective representation, but no single labor organization receives the support of a majority of bargaining unit members, the Commission shall schedule a second election within 60 days, in which bargaining unit members may choose between the labor organization receiving the most votes and no representative.

(I) The Commission shall promulgate rules for the resolution of disputes regarding the filing of petitions for the removal and substitution of representatives, and the holding of elections, that are consistent with this section.

## **Mission Statement**

The American Legislative Exchange Council's mission is...

To advance the Jeffersonian Principles of free markets, limited government, federalism, and individual liberty through a nonpartisan public-private partnership among America's state legislators, concerned members of the private sector, the federal government, and the general public.

To promote these principles by developing policies that ensure the powers of government are derived from, and assigned to, first the People, then the States, and finally the Federal Government.

To enlist state legislators from all parties and members of the private sector who share ALEC's mission.

To conduct a policy making program that unites members of the public and private sector in a dynamic partnership to support research, policy development, and dissemination activities.

To prepare the next generation of political leadership through educational programs that promote the principles of Jeffersonian democracy, which are necessary for a free society.

## **American Legislative Exchange Council TASK FORCE OPERATING PROCEDURES**

### ***I. MISSION OF TASK FORCES***

Assume the primary responsibility for identifying critical issues, developing ALEC policy, and sponsoring educational activities which advance the Jeffersonian principles of free markets, limited government, federalism, and individual liberty. The mission will be accomplished through a non-partisan, public and private partnership between ALEC's legislative and private sector members in the specific subject areas assigned to the Task Force by the Board of Directors.

### ***II. TASK FORCE RESPONSIBILITIES***

- A. Task Forces have the primary responsibility for identifying critical issues and developing ALEC's official policy statements and model legislation appropriate to the **specific subject areas** of the Task Force.
- B. Task Forces serve as forums for an exchange of ideas and sharing of experiences between ALEC's state legislator and private sector members.
- C. Task Forces are responsible for developing and sponsoring the following educational activities appropriate to the specific subject area of the Task Force:
  - publications that express policy positions, including, but not limited to State Factors and Action Alerts;
  - educational communication and correspondence campaigns;
  - issue specific briefings, press conferences and press campaigns;
  - witness testimony and the activities of policy response teams;
  - workshops at ALEC's conferences; and
  - specific focus events.
- D. The Executive Director is to develop an **annual budget**, which shall include expenses associated with Task Force meetings and educational activities. A funding mechanism to finance all meetings and educational activities proposed by Task Forces must be available before they can be undertaken.

### **III. GENERAL PROCEDURES**

- A. Requests from ALEC members for policy statements, model legislation and educational activities shall be directed by the Executive Director to the appropriate Task Force, or the Board of Directors if the issue does not fall within the **jurisdiction** of any Task Force. The appropriate Public and Private Sector Task Force Co-Chairs determine the agenda for each Task Force meeting, and the meetings will be called and conducted in accordance with these Operating Procedures.

The Director of Policy with the consent of the Executive Director assigns a model bill or resolution to the most appropriate Task Force based on Task Force content and prior jurisdictional history 35 days before a Task Force Meeting. All Task Force Co-Chairs will be provided an email or fax summary of all **model bills and resolutions 35 days before** the Task Force meeting

If both the Co-Chairs of a Task Force are in agreement that they should have jurisdiction on model legislation or a resolution, the legislation or resolution will be considered by the Task Force. If the other Task Force Co-Chairs believe they should have jurisdiction or if the author of the model bill or resolution does not agree on the jurisdictional assignment of the bill, they will have **10 days after the 35-day mailer deadline** to submit in writing or by electronic appeal to the Director of Policy their intent to challenge the jurisdiction assignment. The Director of Policy will notify the Executive Director who will in turn notify the National Chair and the Private Enterprise Board Chair. The National Chair and the Private Enterprise Board Chair will in turn refer the matter in question to the Board of Directors Task Force Board Committee. The Director of Policy will establish a conference call for the Task Force Board Committee co- chairs, the author, the affected Task Force Co-Chairs and the Director of Policy at a time convenient for all participants.

**The Task Force Board Committee Co-Chairs** shall listen to the jurisdictional dispute by phone or in person within 10 days of the request. If both Task Force Board Committee Co-Chairs are in agreement that the Director of Policy made an incorrect jurisdictional referral, only then will the model bill or resolution be reassigned to a committee as they specify once agreed upon by the **National Chair and the Private Enterprise Board Chair**. The bill or model resolution is still eligible to be heard in whatever Task Force it is deemed to be assigned to as if submitted to the correct Task Force for the 35-

day mailer. The National Chair and the Private Enterprise Board Chair decision is final on this model bill or resolution.

**Joint referral of model legislation and/or resolutions** are allowed if all the affected Task Force Co-Chairs agree. All model legislation and resolutions that have been referred to, more than one Task Force must pass the identical language in both Task Forces within two consecutive Task Force meetings. It is at the Task Force Co-Chairs discretion how they will handle the hearings of the model legislation or resolution. Both sets of co-chairs have the ability to call a working group, subcommittee, or simply meet consecutively or concurrently if necessary.

If the Task Force co-chairs both agree to waive jurisdiction, they may do so as long as another Task Force still has jurisdiction.

The National Chair and the Private Sector Board Chair will rely upon the Task Force Board Committee Co-Chairs for advice and recommendations on model legislation or resolutions when no jurisdiction in any of the existing Task Forces in operation can be found. The Task Force Board Committee Co-Chairs will work with the Executive Director and the Director of Policy to identify public and private sector Task Force members (not alternates) from the existing Task Forces should their expertise be of assistance to the Task Force Board Committee in reaching a determination and recommendation for approval by the National Chair and the Private Enterprise Board Chair.

- B. **The National Chair and the Private Sector Board Chair** will rely upon the Task Force Board Committee Co-Chairs for advice and recommendations on model legislation or resolutions when no jurisdiction in any of the existing Task Forces in operation can be found. The Task Force Board Committee Co-Chairs will work with the Executive Director and the Director of Policy to identify public and private sector Task Force members (not alternates) from the existing Task Forces should their expertise be of assistance to the Task Force Board Committee in reaching a determination and recommendation for approval by the National Chair and the Private Enterprise Board Chair.
- C. **The Board of Directors** shall have ultimate authority over Task Force procedures and actions including the authority to create, to merge or to disband Task Forces and to review Task Force actions in accordance with these Operating Procedures. Nothing in these Operating Procedures prohibits the Board of Directors from developing ALEC policy; however, such a practice

should be utilized only in exceptional circumstances. Before the policy is adopted by the Board of Directors, it should be sent to the Public and Private Sector Task Force Co-Chairs under whose jurisdiction the matter falls for review and comment back to the Board of Directors.

- D. The **operating cycle of a Task Force** is two years. A new operating cycle begins on January 1 of each odd numbered year and ends on December 31 of the following even numbered year. Task Force activities shall be planned and budgeted on an annual basis within each two-year operating cycle.
- E. If a Task Force is **unable to develop an operating budget**, the Board of Directors will determine whether to continue the operations of the Task Force. This determination will be made according to: (1) the level of membership on the Task Force, and (2) the need for continued services developed by the Task Force for ALEC.
- F. **The Board of Directors** shall have the authority to allocate limited general support funds to finance the annual operating budget of Task Forces that meet the requirements prescribed in Section III (E). The Executive Director shall determine, and report to the Board of Directors, the amount of general support funds available to underwrite such Task Forces.

The Executive Committee shall consist of the Public Sector Task Force Co-chair, the Private Sector Task Force Co-Chair, the subcommittee co-chairs, and the remainder will be an equal number of legislative and private sector Task Force members. The Executive Committee will be responsible for determining the operating budget and proposing plans, programs and budgets for the succeeding year in accordance with (Section V (B)); determining if a proposed educational activity conforms to a previously approved model bill, resolution or policy statement in accordance with (Section IX (F)); and determining if an emergency situation exists that justifies waiving or reducing appropriate time limits in accordance with (Section VIII (H)).
- D. Each Task Force may have any number of **subcommittees**, consisting of Task Force members and advisors to focus on specific areas and issues and make policy recommendations to the Task Force. The Task Force Co-chairs, shall create subcommittees and determine each subcommittee's mission, membership limit, voting rules, deadlines, and term of service. Any model bill, resolution or policy statement approved by a subcommittee must be approved by the Task Force before it can be considered official ALEC policy.
- E. Each Task Force may have advisors, appointed in accordance with Section VI (G). **Advisors** shall assist the members and staff of the Task Force. They shall be identified as advisors on official Task Force rosters, included in all official

Task Force mailings and invited to all Task Force meetings. Advisors may also have their expenses paid at Task Force meetings covered by the Task Force operating budget with the approval of the Task Force Co-Chairs. An advisor cannot be designated as the primary contact of a private sector Task Force member, cannot be designated to represent a private sector Task Force member at a Task Force, Executive Committee, or subcommittee meeting, and cannot offer or vote on any motion at a Task Force, Executive Committee, or subcommittee meeting.

- B. The **operating budget** shall be used primarily to cover expenses for Task Force meetings, unless specific funds within the budget are authorized for other use by the Task Force. The operating budget shall be assessed equally among the private sector members of the Task Force. The Executive Director, in consultation with the Task Force Co-Chairs shall determine which costs associated with each meeting will be reimbursed from the operating budget. Any funds remaining in a Task Force's operating budget at the end of a year are transferred to ALEC's general membership account.
- C. The operating budget shall not be used to cover Task Force meeting expenses associated with **alternate task force members'** participation, unless they are appointed by their State Chair to attend the Spring Task Force Summit with the purpose to serve in place of a Task Force Member who is unable to attend. Task Force meeting expenses of alternate task force members shall be covered by their state's scholarship account.
- D. The **programming budget** shall be used to cover costs associated with educational activities.
